Faculty of Applied Sciences and Technology

Career Fair & Networking Event 2020

**Wednesday February 5, 2020
Barrett Centre for Technology Innovation
10:00 am – 2:00 pm**

Hosted by Co-op and Work Placement Services

All Students Welcome

Employers are interested in meeting students looking for Summer, Co-op, Work Placement and/or Full-Time opportunities from Diploma, Degree and Graduate Certificate programs, and programs at Carrier Drive

Please read through the following pages for tips on how to prepare for this event, as well as to see the list of participating employers.

CAREER NETWORKING EVENTS MAKE A GOOD IMPRESSION!

A Career Networking Event is an opportunity to network with people from companies and industries that interest you. It's a great way to develop contacts, as well as learn about industry trends, employment opportunities and what employers expect from job seekers.

Some employers at the Career Event may have actual job openings to discuss with you. Some companies will not have job openings right now, and are here to learn more about Humber, our program and our students, as well as collect resumes for future needs. Employment opportunities develop all the time, so it's important to come prepared to discuss your career interests and make a good impression.

EVENT FORMAT – WHAT TO EXPECT?

- Each organization will have a table, possibly a display.
- Walk about the room and look for employers you wish to speak with.
- Be prepared to briefly introduce yourself, and ask your questions. Employers will be interested in telling you about job opportunities and what they look for when hiring.

SET A GOAL – WHAT WOULD YOU LIKE TO LEARN?

- Review the list of companies that are planning to attend.
- Do some preliminary research. Visit the company websites to find out what they do, and the opportunities they have.
- Think of 2 or 3 job or career related questions you have.
- Plan to visit the table of every company. Be creative when you ask your questions. **All employers can talk about factors for workplace success, the “employability skills” they look for when hiring, what’s happening in their industry, which projects are being awarded, where growth is occurring, etc.**
- Practice an introduction. Your name, the program you are in, your skills, and your career interests. What is unique about you that will set you apart from your classmates?

CAREER EVENT ETIQUETTE – WHAT TO BRING? WHAT TO WEAR?

- Bring several copies of your resume, in case some employers have jobs or plan to hire. How many copies should you bring? Bring more copies than there are employers.
- Bring breath mints. Avoid chewing gum in front of an employer.
- Dress is business casual.
- Turn off your cell phone prior to entering the event. Please do not answer your cell phone when you are speaking with an employer.

List of Participating Employers:

Research the following companies and plan to visit all of the booths to network and learn about career options across all the different sectors represented at the event. Bring copies of your current resume.
