# Application to WORK2LEARN Fall 2020

Applications are currently being accepted from students in the programs listed on the reverse. Students interested in participating in the Optional Work Placement component of their academic program are invited to complete this form to**:**

**Email to: WorkAppliedTechnology@humber.ca,**
**Application Deadline: Friday, November 6, 2020**

| First + Last Name (Please print): | |
|---|---|
| N Number: | Semester: |
| Academic Program: | Dom or Int'l: |
| Mobile: | Home Phone: |
| Preferred Email: | |

By signing this WORK2LEARN ("W2L") Application Form I understand and agree to the following:

- Acceptance into the placement program is a competitive process since spaces are limited, and not all students who meet the minimum academic eligibility requirements may be accepted.

- Acceptance into WORK2LEARN will be extended to selected applicants based on their application and academic standing as specified in the Optional Work Placement webpage for their academic program, located at https://appliedtechnology.humber.ca/current-students/work-integrated-learning/optional-placement.html

- Upon acceptance into WORK2LEARN, I understand I must register in the course WORK 120 (Skills for Employment) and the **non-refundable fee of $299** will be applied to my account.

- Eligibility to remain in WORK2LEARN will be based on my academic standing at the end of the F20 and W21 semesters, successful completion of WORK120 (Skills for Employment), active engagement in an independent job search and applying to at least 20% of all placement leads posted in CareerConnect, Humber's job board throughout the W21 term.

- I acknowledge I can withdraw from WORK120 at any time, however, the fee is non-refundable once the WORK 120 workshops commence.

- While the Work Placement Office works closely with industry to identify placement opportunities and provides a range of services to help students succeed, I acknowledge placements are not guaranteed, that I must also actively seek employment, and, that I am ultimately responsible for finding my own placement.
